INTRODUCTION

The way people live and the power of aesthetic design informs our Spring / Summer 2024 Collection. We consider the role our senses play in experiencing the world around us, and how our products might enhance our environments. Versatile and relevant products which endure in quality and style are designed for people, with the aim of understanding the purpose and environment in which they are used.

Monika Lubkowska-Jonas

Monika Lubkowska-Jonas
Creative Director

OUR PILLARS

HERITAGE

Janusz Lubkowski co-founded LSA International in 1960s London. In an environment synonymous with cultural and social change, his belief in a diversity of ideas and a passion for contemporary design ensured the company thrived. Through shared experience and inherited values, Monika Lubkowska-Jonas continues to develop her father’s vision and a culture of understanding that defines our company’s past, present and future.

DESIGN

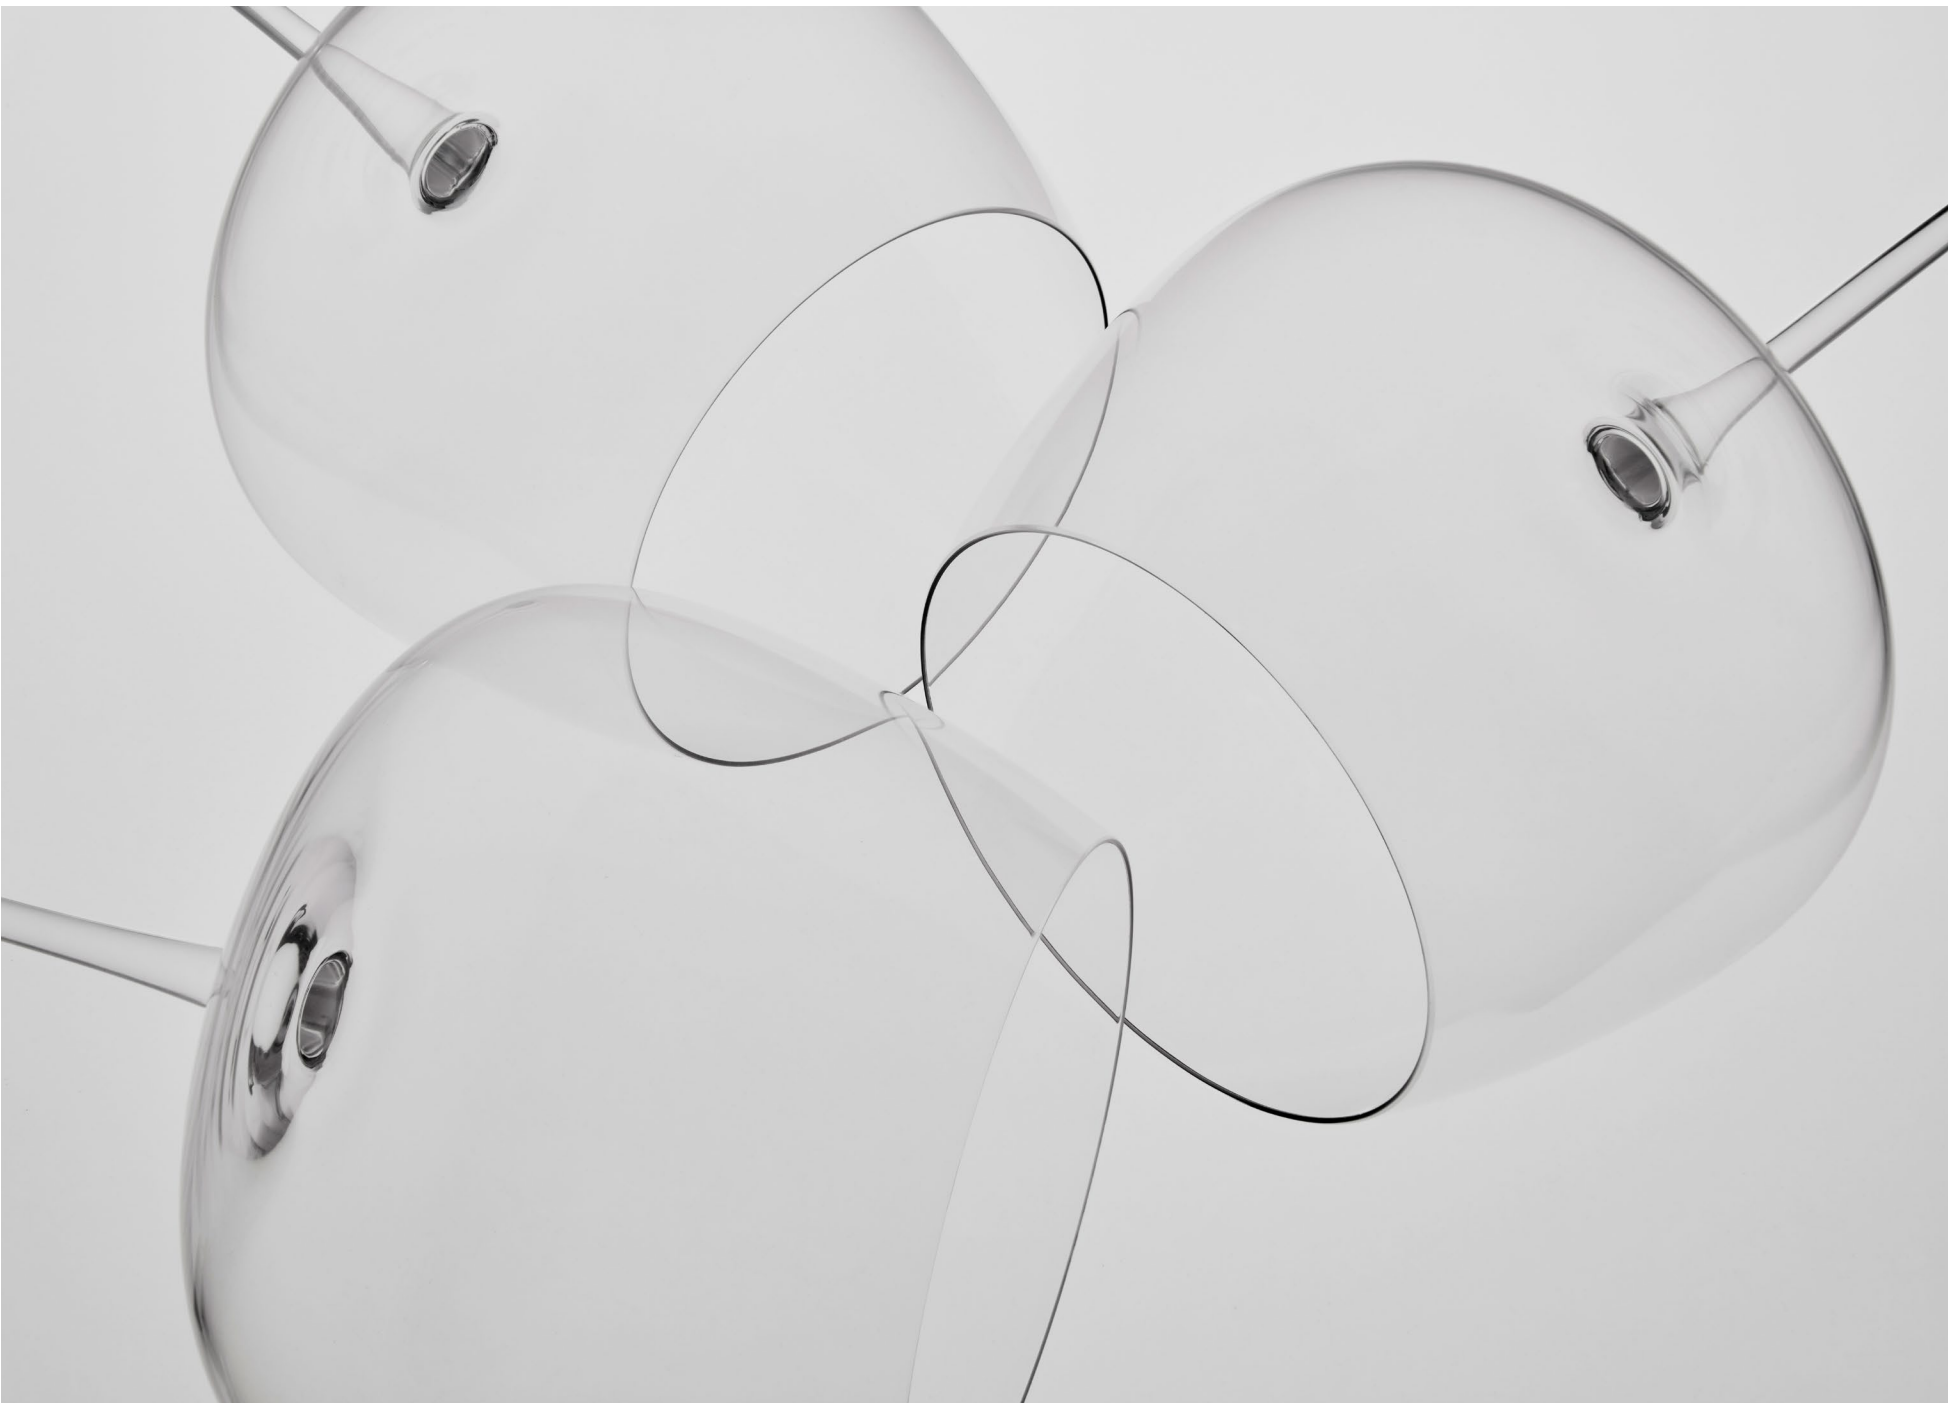

Our design process is inspired by the way people live. A sustainable approach which goes beyond form and function to create something considered, something of intrinsic value. We design for people with the aim of understanding the purpose and the environment in which our products are used. Thoughtful, considered design.

2014, 2017, 2018, 2019 – iF Design award

2016 – DesignPlus award

**2016, 2017, 2018, 2021, 2023 –
Good Design award**

2020 – Green Good Design award

CRAFT

Through the skilled use of hand tools and an understanding of high quality raw materials, our European craftsmen use traditional techniques to transform mouth-blown glass into products of intrinsic value. After basic forms are blown, each piece is finished accordingly using a range of detailed processes. Our experience with our primary material, glass, enables us to experiment and push the boundaries of hand production, using the craftsmanship and skill of European producers.

SUSTAINABLE CHOICES

Our intention is to create useful, versatile and relevant products which endure in quality and style. We consider how our products might serve a greater purpose and enhance our environments: improving our surroundings while leaving less of an impact on the earth. By designing lasting, considered products we encourage people to make sustainable choices: buying less and owning for longer. Our collections consider the importance of biophilia, biodiversity and the benefits of biophilic design, exploring how nature has the power to positively impact wellbeing.

AN OPEN DOOR

WATCH OUR FILM

ARC CONTRAST

A collection of tumblers which add colour and texture to the original clear forms of the GOOD DESIGN Award winning ARC drinkware collection. Tactile translucent and matte finishes meet in the centre of the glass to create contrasting surfaces which play on light. The soft gentle silhouettes and the textured surface sit comfortably in the hand and the tonal array of colours lend themselves to creating individual or multi-hued colour stories.

An extension of our ARC Collection, Good Design Award Winner 2023

See page 17 for the full collection.

ARC

An award winning versatile drinkware collection with a relaxed and fine aesthetic. Soft, gentle forms with straight edges and a tactile curved base are a natural complement to the spaces we inhabit. The collection's arching silhouette conveys a sense of welcome, warmth and togetherness. Made from lead-free glass for a high level of brilliance and durability.

**Winner 2023 –
The Good Design® Award
from The Chicago Athenaeum:
Museum of Architecture
and Design.**

BOROUGH

A comprehensive range of modern barware and tabletop glasses created for beer, wine and cocktails. Fine stems and carefully proportioned bowls characterise the dishwasher safe drinkware, which is complemented by two carafes and a board set made from FSC®-certified ash. The quality of the glass guarantees a high level of flex and durability, brilliance and clarity.
