OUR PILLARS

HERITAGE

Janusz Lubkowski co-founded LSA International in 1960s London. In an environment synonymous with cultural and social change, his belief in a diversity of ideas and a passion for contemporary design ensured the company thrived. Through shared experience and inherited values, Monika Lubkowska-Jonas continues to develop her father’s vision and a culture of understanding that defines our company’s past, present and future.

DESIGN

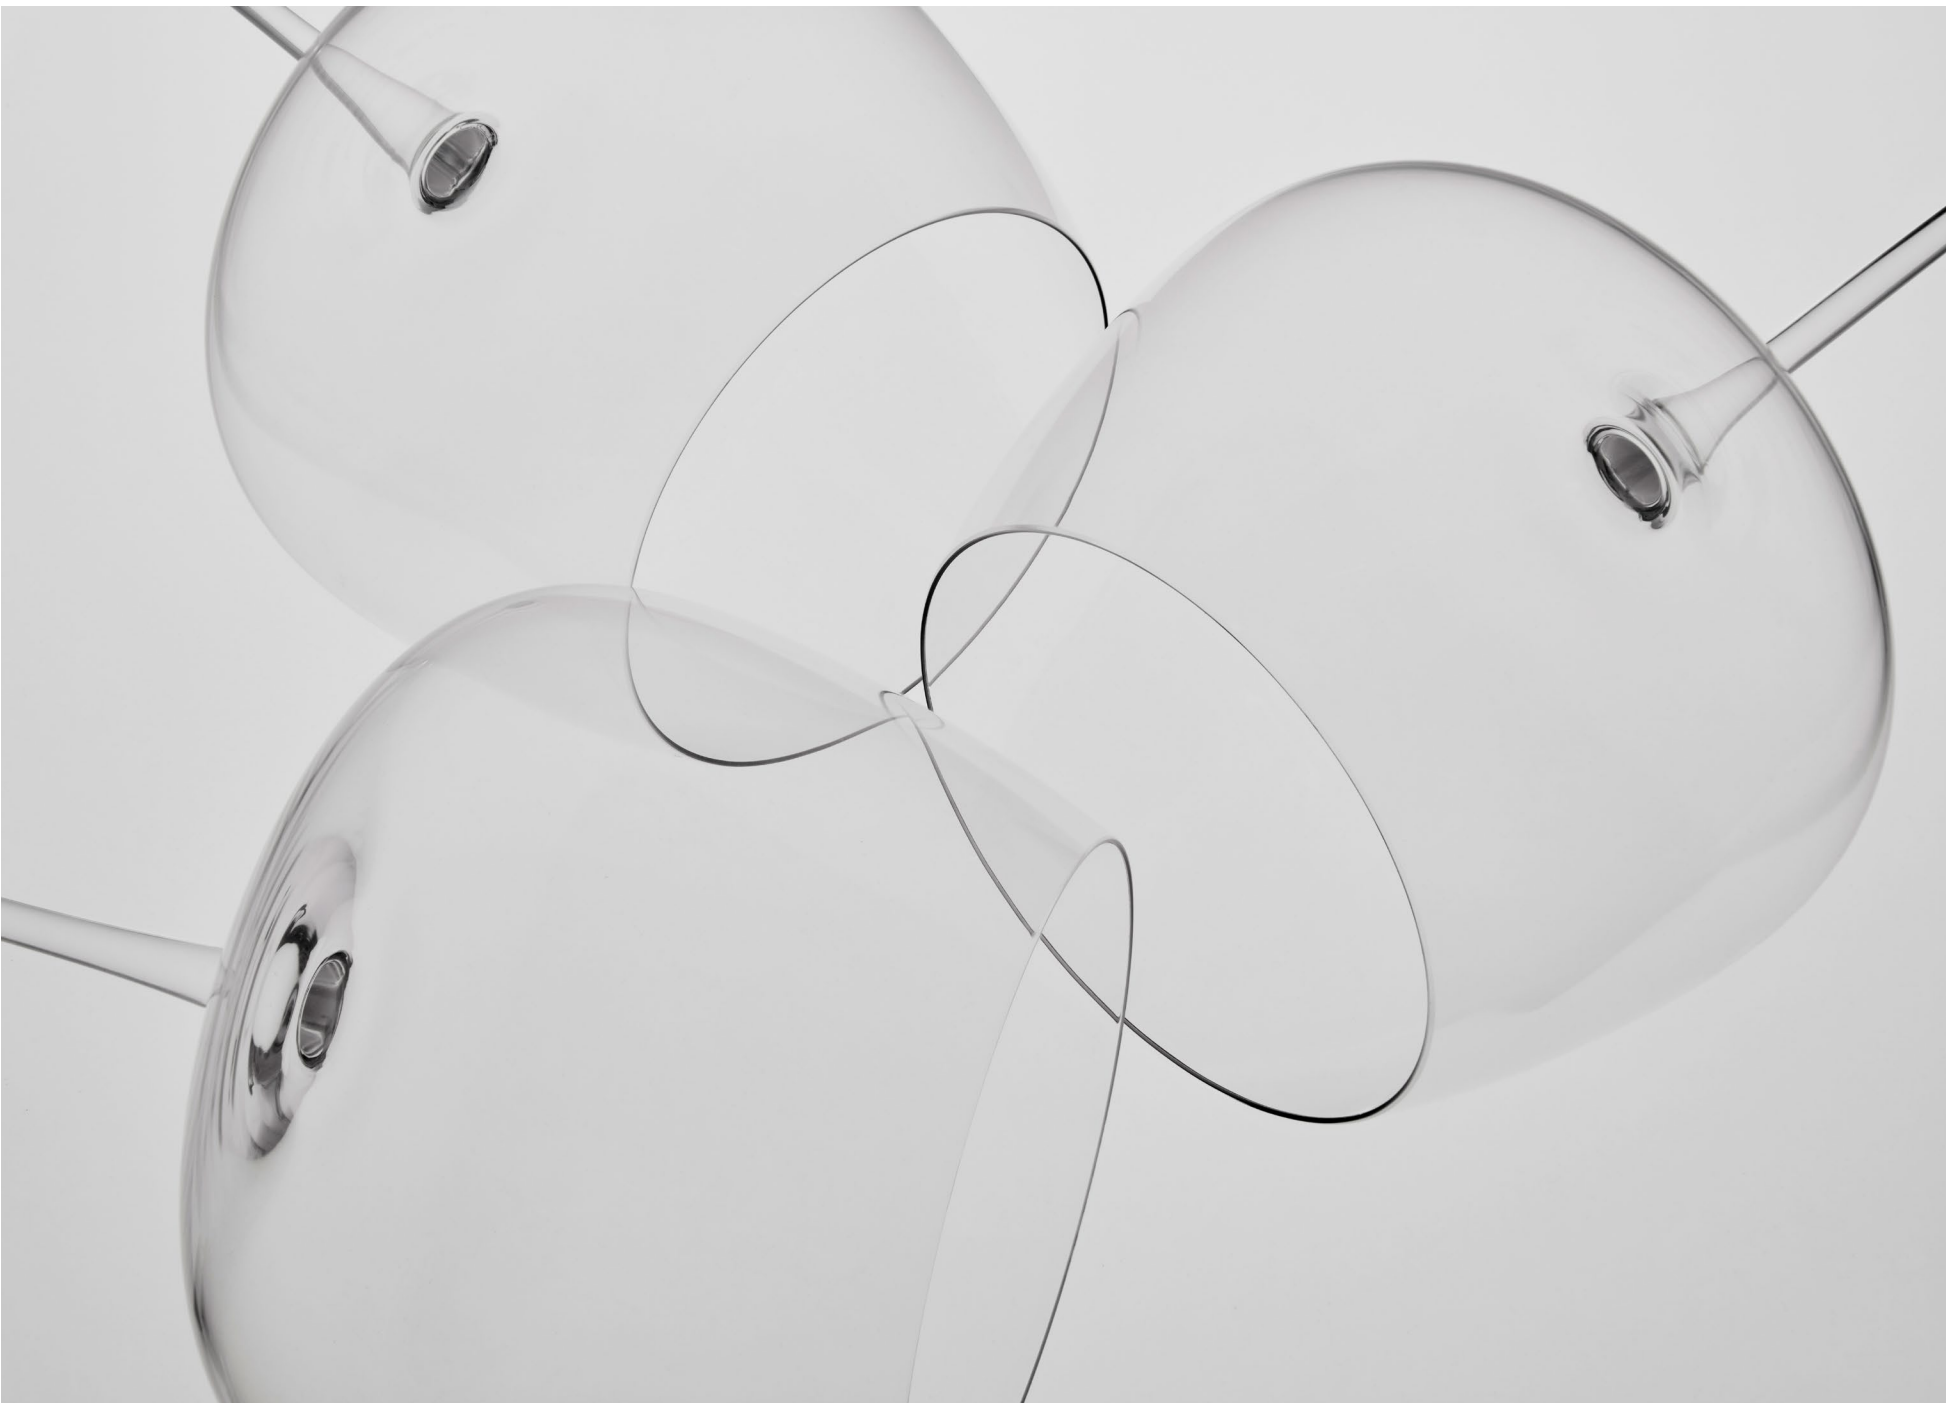

Our design process is inspired by the way people live. A sustainable approach which goes beyond form and function to create something considered, something of intrinsic value. We design for people with the aim of understanding the purpose and the environment in which our products are used. Thoughtful, considered design.

2014, 2017, 2018, 2019 – iF Design award

2016 – DesignPlus award

**2016, 2017, 2018, 2021, 2023 –
Good Design award**

2020 – Green Good Design award

CRAFT

Through the skilled use of hand tools and an understanding of high quality raw materials, our European craftsmen use traditional techniques to transform mouth-blown glass into products of intrinsic value. After basic forms are blown, each piece is finished accordingly using a range of detailed processes. Our experience with our primary material, glass, enables us to experiment and push the boundaries of hand production, using the craftsmanship and skill of European producers.

SUSTAINABLE CHOICES

Our intention is to create useful, versatile and relevant products which endure in quality and style. We reflect on how our products might serve another purpose and enhance our environments: improving our surroundings while leaving less of an impact on the earth. By designing lasting, considered products we encourage people to make sustainable choices: buying less and owning for longer. We consider the importance of biophilia, biodiversity and the benefits of biophilic design, exploring how nature has the power to positively impact wellbeing.

WATCH OUR FILM

INTRODUCTION

Meaningful connections to people, places and ideas inform our Spring / Summer 2024 collection. Tracing an ever-evolving dialogue between heritage and vision, design and craft, people and their environment. An expressive and purposeful use of colour, texture and form lends movement to this collection, inspired by aesthetic design and diverse cultural references: from traditional Polish handicraft to modernist sculpture to the memory of an esteemed, long-standing LSA friend.

FOLK

Vibrantly coloured stripes are borrowed from traditional Polish textiles and decoration in the FOLK Collection. Staggered bands of alternating colour mimic Łowicki fabrics, and the exaggerated silhouettes of layered, billowing skirts are seen in the wide, undulating vase shapes.

Solid, coloured glass rods are fused with a gather of clear glass and then mouth blown into a bespoke mould. The skilled, handmade process produces distinctive folk-inspired patterns and organic forms, with no two vessels ever being the same.

VICTORIA

A collection of vases created in tribute to the late florist Victoria Taberer-Bond. A long-standing partner and friend to LSA, Victoria crafted arrangements for editorial shoots, bouquets for the LSA showrooms and presented flowers for events, always lending her passion, astute eye and love for organic colour. Her inspiration came directly from the natural world, with her vivid style challenging uniformity.

In her memory, the mouth-blown vases are based on the design of florists' conical metal containers, with the flared or tapered forms and wide flat collars giving choice and emphasis when arranging flowers and foliage.

For each Victoria vase we sell, we will make a donation to the cancer charity [sarcoma.org.uk](https://www.sarcoma.org.uk) in her memory.

SCULPT

Stacked geometry and angular modern shapes define the SCULPT Collection. The carved wooden totems of Constantin Brancusi are referenced in the sculptural outlines of each mouth-blown vase and vase/lantern. Forms appear to expand and contract rhythmically across the collection as close attention is paid to line, scale and equilibrium. The neck of each piece slants inwards or outwards, giving choice when arranging flowers, foliage and single blooms.

ARC CONTRAST

A collection of tumblers which add colour and texture to the original clear forms of the GOOD DESIGN Award winning ARC drinkware collection. Tactile translucent and matte finishes meet in the centre of the glass to create contrasting surfaces which play on light. The soft gentle silhouettes sit comfortably in the hand and the tonal array of colours lend themselves to creating individual or multi-hued colour stories. Dishwasher safe.

An extension of our ARC Collection, Good Design Award Winner 2023
