From the brand that brought you a range of award-winning ceramic tableware, Luzerne now introduces LEK, a stoneware series to complete the Everyday Best experience! The name is inspired by the Chinese word ‘陆’ meaning ‘land’, which also refers to the humble origin of the raw materials. LEK’s irregular shapes and earthy colours remind us of our childhood days when we used to play with clay and go wild with imagination. Pick up a piece and feel how the sturdy weight of stone nestles gently in both hands....this is a collection that involves all our senses! Put it in the hands of master chefs and it becomes an artistic collection perfect for individual plating and presentations.

Inspired by strong resilient stalks  
in the forest that bend with the wind  
but never break, this plate is a  
simple tale of nature's marvel.

# Crafted by Nature

## A New Legacy

Our artisanal craftsmanship is the mark of quality. Every piece in the Lek stoneware series is expertly crafted by artisans in our wholly-owned factory in Dehua, China – birthplace of Blanc de Chine and simultaneously conferred the status of World Porcelain City, World Heritage Site and National Civilised City.

## The Process

Lek is a work of art shaped by nature using raw materials gifted by her. Beginning with the right mix of materials filtered to exacting standards by our experienced technicians, the clay base is expertly fired at 1,280 degrees Celsius for a longer period of time to achieve that unique natural look.

## Quality Control

The finished wares are then inspected by our artisans to ensure that only the finest products go onto the dining table, fit for use in both professional and home kitchens.

## Yours To Keep

Stoneware is sturdy and the nature of its materials means that subtle variations may be observed. These natural occurrences are what make every piece so beautiful and interesting to each individual owner. Most of our collections are semi matte glazed and may have naturally-present carve marks. These irregularities in glaze and textures are in fact celebrated as the mark of an artist's hand. They are also an assurance of unique authenticity. Handle your Lek stoneware with care and it's yours to keep for a long time.
